Education

Bachelors of Science in Software Engineering,

July 2021 – June 2026

Adama Science and Technology University

Adama, Ethiopia

• Relevant courses : Fundamentals of programming, Data Structures and Algorithms, Object-Oriented Programming, Software Development Life Cycle, Database Management, Operating Systems, Web Development, and Software Testing and Maintenance.

Data Structures and Algorithms,

December 2023 – present

Africa to Silicon Valley

Adama, Ethiopia

• Mastered fundamental and advanced data structures and algorithms through rigorous training, enhancing problem-solving and analytical skills.

Professional Experience

Internship, Eskalete

July 2024 – September 2024

I developed responsive and user-friendly web applications, enhancing my skills in front-end and back-end development. I worked with modern frameworks, collaborated with cross-functional teams, and gained hands-on experience in optimizing website performance and implementing best practices in coding and design.

Projects

Eventify

September 2024 – present

Eventify allows users to browse, register, and manage events. It includes functionalities such as event search, filtering by categories, event booking, and more. The app provides an intuitive user interface to ensure a seamless experience for all users.

Skills

Web Development

• Next.js, React.js, Redux, NextAuth, TypeScript, JavaScript, Responsive Design

Competitive programming

Solving over 800+ problems on [LeetCode](#) and [Codeforces](#) combined.

UI / UX Design

Version Control
